- \$1.12 Billion
- Publicly traded
- 6,400 Employees globally
- Headquarters based in Milwaukee, WI

WHO WE ARE

No matter your business, Brady brings the benefits of innovation, clarity and our people.

3

WHAT WE MAKE

THE BRADY EXPERIENCE

We Design and Build it All: An integrated system where printer knows label and visa versa. Delivers automatic setup, no calibration and quick material changeovers.

Intuitive Interface: We are the label design experts so you don't need to be. Whether designing on the printer or using Brady Workstation, Brady guides your design.

Millions of Color Combinations: No matter the label and text color you need, Brady has a label/ribbon/ink offering which delivers variety...simply

A person wearing safety glasses is operating a Brady printer. The printer has a large touchscreen interface displaying a label design for a 'SOLVENT ROOM'. The person's hand is touching the screen. A printed label is emerging from the printer. The background is a workshop or factory setting.

ENABLE YOUR SUCCESS

EASILY CONNECT TO YOUR PRINTER

Brady Workstation works seamlessly with a range of Brady desktop and portable printers. Brady's high-end label printers also offer bi-directional communication with Brady Workstation and will inform users if they have to switch label materials to print specific label designs. Printer compatibility is shown in Brady Workstation on an app by app basis.

Design any label with Brady Workstation apps
