ALTE SEGMENTE DE PIATA

- ❑ A solution that includes an authentication device for banknote depositing, counting and storage in real time;

- ❑ A maximum security banknote safe;

- ❑ The safe lock can be opened only after the bag is sealed;

- ❑ A banknotes deposit system using secured disposable permanent-seal bag; ;

- ❑ User identification through CARD and PIN or Barcode(optional);

- ❑ The receipts are printed by a thermal printer integrated into the EFT-POS terminal;

- ❑ User authorization through barcode scanning; (optional)

- ❑ The software app allows the remote monitorisation/management and crediting the bank account in real time;

- ❑ The solution reduces the processing time and the risk of counterfeit, thus eliminating further reconciliations.
