Infinite Paperless Suite

DIGITISE
your supply chain relations...

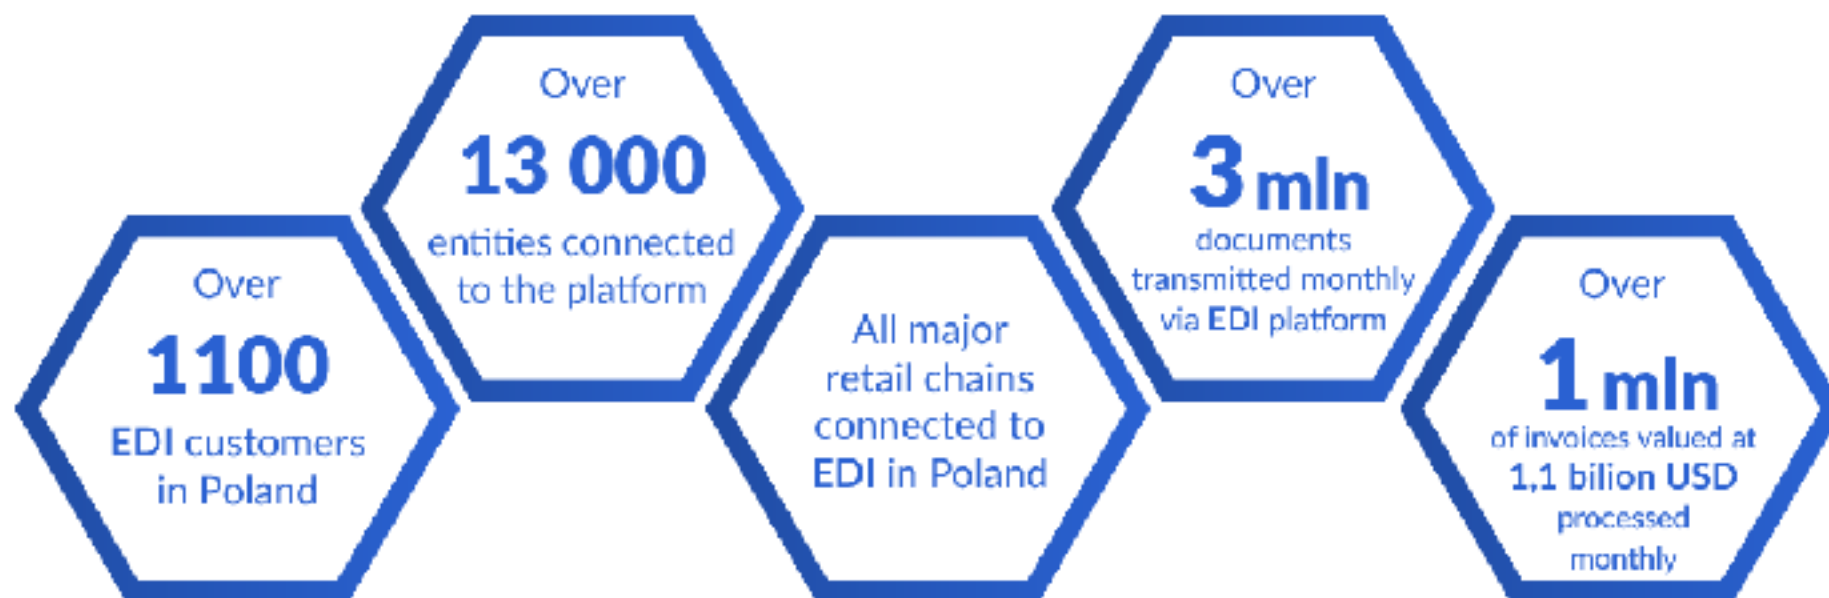

... GO PAPERLESS
inside your organization

Our customers

We know retail inside-out

As Infinite IT Solutions, we've been supporting retail companies in Poland in their digital transformation since 2002.

Digitisation is the growth engine

50-54% of working time in Romania is spent on activities that could be automated.

The Rise of Digital Challengers, McKinsey 2018.

Infinite EDInet Suite

Did you know that 71% of activities related to data processing could be automated?*

Process your transaction documents much faster

Maximize your staff productivity

Achieve 100% data accuracy

Reduce your paper consumption

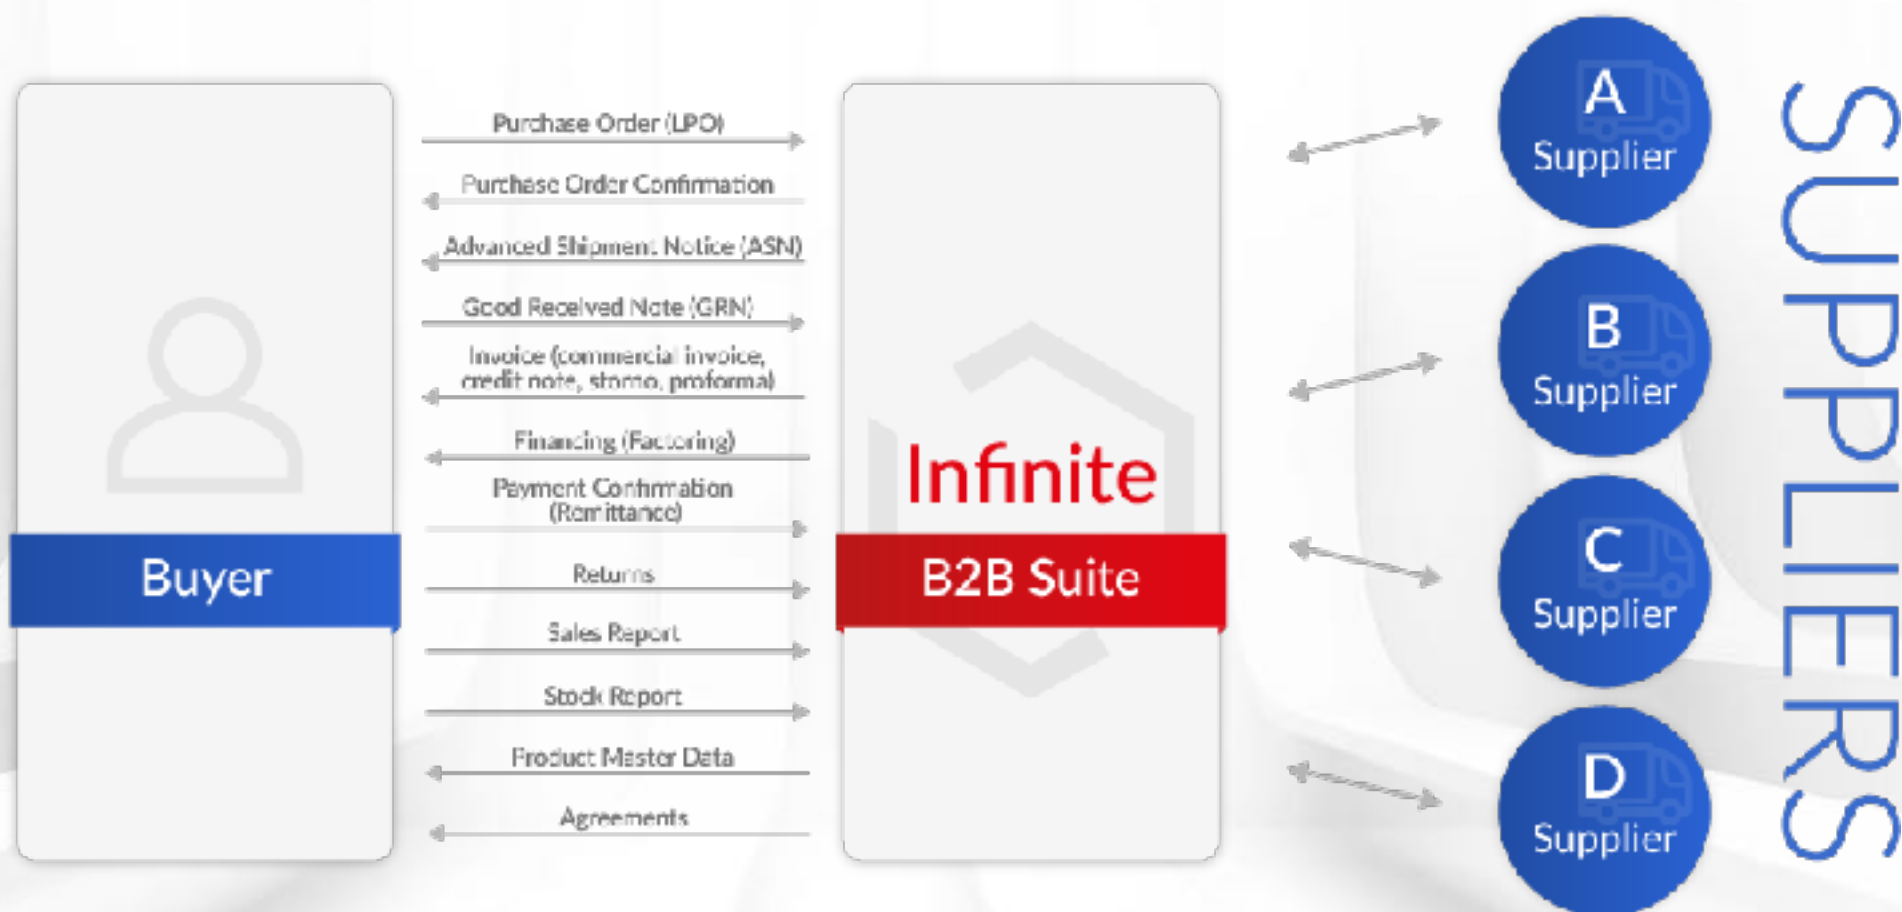

Improve your order-to-cash process

* The Rise of Digital Challengers

McKinsey 2018.

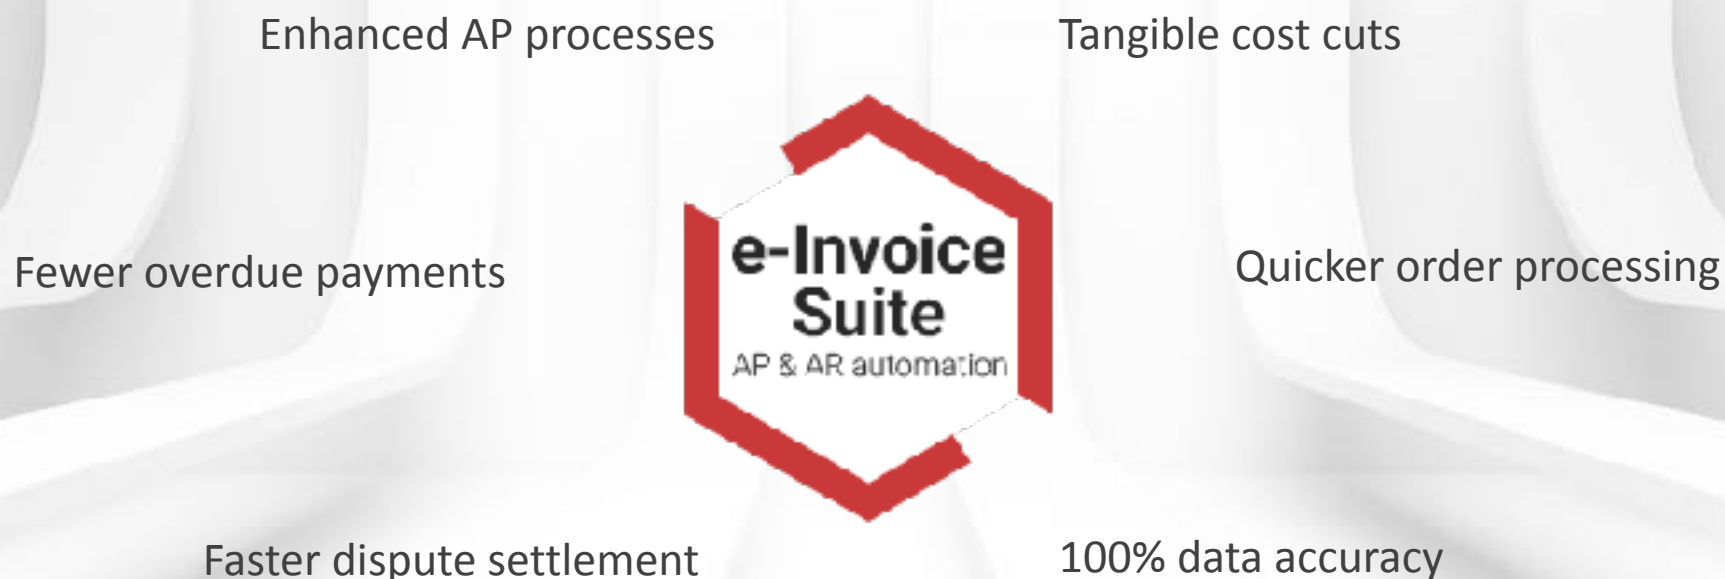

Infinite EDInet Suite

Infinite e-Invoice Suite

In Romania, only 16% of companies send e-invoices suitable for automated processing in B2B.*
Why should that change?

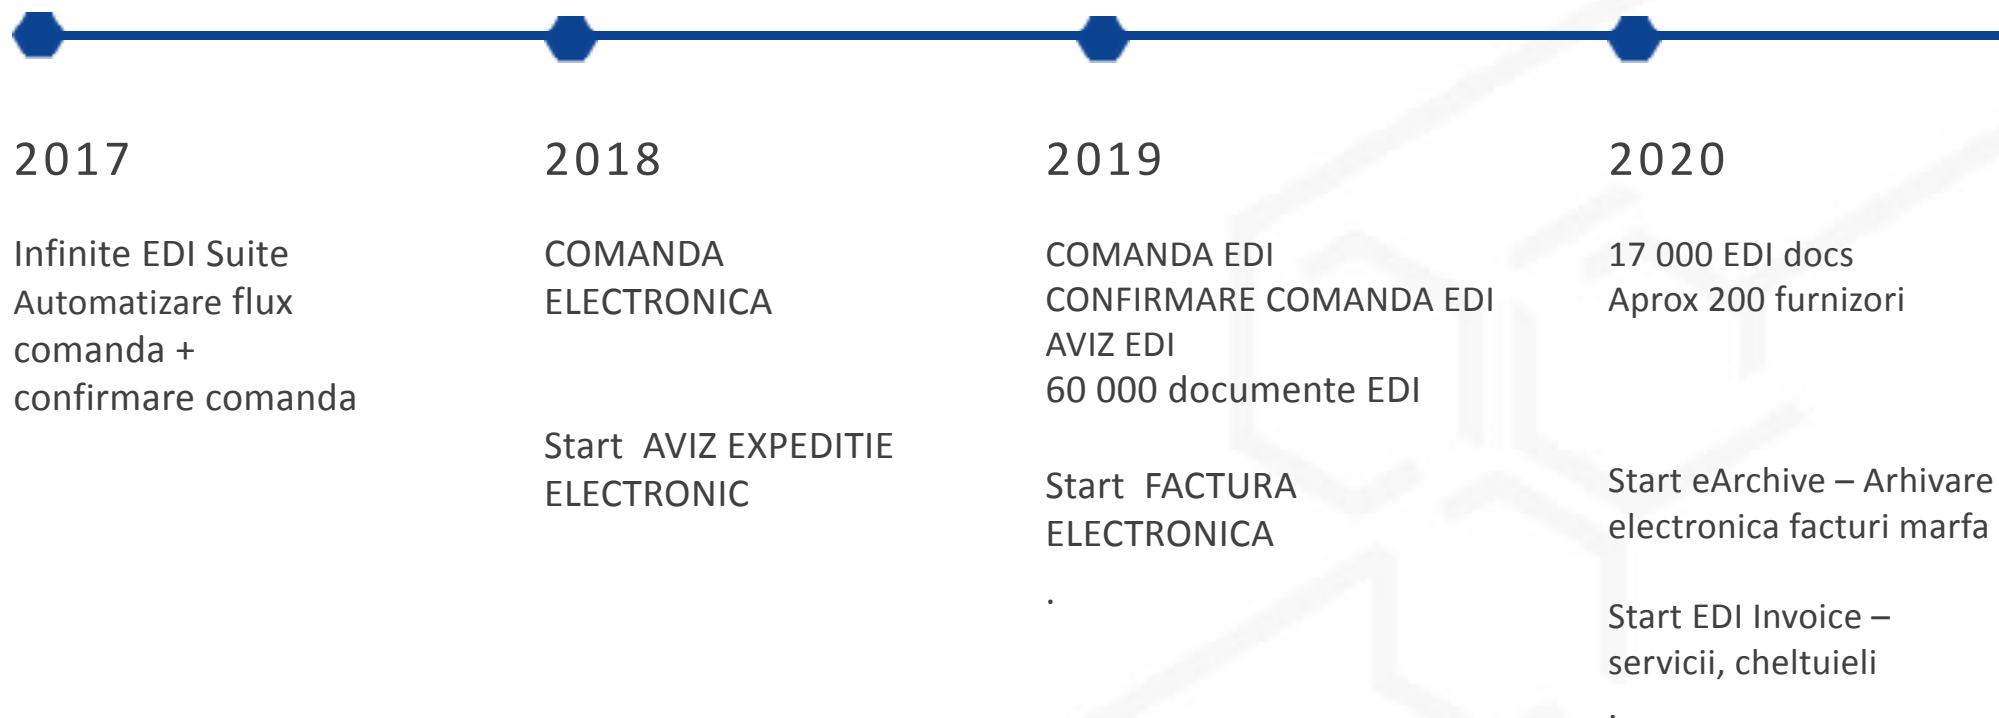

* The Rise of Digital Challengers, McKinsey 2018.

Romstal Project - Case study

Into the future. What's in store?

Romstal Project - Case study

UP TO 61% FASTER BUSINESS CYCLES

Complete transactions in minutes – not days or weeks – because you no longer need to rely on the postal services.

30-40% LESS ERROR TRANSACTIONS

Forget about errors from illegible handwriting, lost faxes/emails and typing and re-typing mistakes.

MAXIMIZED STAFF PRODUCTIVITY

Free of repetitive jobs, your staff becomes more productive and can concentrate on higher-value tasks.

ORDER-TO-CASH IMPROVED BY 20%

Maximize your business transactions and improve customer experience.

BUSINESS-RELEVANT DATA IN REAL TIME

Get up-to-date and consistent data across all systems within the supply chain. Use it to build your competitive edge.

GO GREEN INITIATIVE ADOPTED

By exchanging business documents electronically, you are able to lower paper consumption in your organisation.

Infinite e-Archive Suite

Why paperless, audit-proof archiving?

- Failsafe 24/7 access to all documents
- Compatibility with all operating systems
- Online search of the dataset
- Integrated backup and user interface
- Scalable solution prepared to grow with your business
- Temporary access (e.g. audit, tax control)
- High performance
- Top security measures: access control, time stamp verification, signature verification

Infinite e-Catalogue Suite

Your single source of product master data to update information and settle the price management module.

- 
- Faster exchange of product master data with business partners
 - Fewer errors in the product descriptions
 - Fewer stock-out incidents
 - Faster product launch into the market
 - Faster exchange of product master data with business partners
 - Fewer errors in the product descriptions
 - Compliance with GS1 standards

Infinite Marketplace Suite

All-embracing, paperless communication between distributors and stores from order processing to data interchange.

- Automation all repetitive business processes
- Creating dedicated product lists for individual buyers
- Access to the platform anytime, anywhere
- Defining tailor-made terms of cooperation with business partners (e.g. discounts, special offers, etc.)
- Processing POs instantly
- Using built-in auditing and reporting tools
- Eliminating human errors, inaccuracies or reworks

Infinite e-Sign Suite

Did you know that with e-Sign you can sign any business document from anywhere in the world?

- Franchise agreements
- Forms (e.g. equipment handover)
- Employment agreements
- Complaints
- Many others

B2G e-invoicing

Infinite IT Solutions is the first company in Poland to receive OpenPEPPOL certification.

In Poland, Infinite IT Solutions won the tender announced by the Ministry of Entrepreneurship and Technology to create the Electronic Invoicing Platform (PEF)*.

The PEF platform was created to meet the obligation imposed by Directive 2014/55 / EU of the Council and the European Parliament on electronic invoicing in public deliveries. It introduces the obligation to receive structured electronic invoices by the Ordering Party.
